Ithaca, NY

Expected May 2025

PROFESSIONAL EXPERIENCE

Goldman Sachs

Investment Banking Summer Analyst – Corporate Derivatives

New York, NY

June 2024 – August 2024

- Initiated and proposed a monumental trade-automation process for rates and FX hedges, aiming to reduce manual reconciliation and improve overall trading accuracy; set to formalize and enact on this project upon returning full-time
- Pitched, modeled, and priced a multilayered foreign exchange and rate hedging solution for a €4B foreign asset acquisition, including deal-contingent swap locks, FX forwards, and post-deal EURUSD cross currency swaps for ongoing exposure
- Produced detailed execution sheets and deal recap builds alongside timely market updates for distribution to major sponsors clients, directly influencing strategic execution on live trades and ensuring alignment with market conditions

Hildene Capital Management

Quant Research Summer Analyst

Stamford, CT

June 2022 – August 2023

- Developed a home price appreciation algorithm that scraped various housing data platforms to determine a statistical relationship between MoM price appreciation and monthly home supply with 90% precision; results sent firm-wide
- Implemented a live credit risk transfer and consumer loan excel dashboard; project efficiently generates Intex cashflows to track critical figures including bond price, yield, credit spread, tranche, WAC, and WAL for use by the trading desk
- Analyzed internal loan delinquency rate data to design an algorithm that displays valuable loan metrics based on customized user inputs; incorporated the tool into the investment team's official Excel dashboard for on-demand usage

CAMPUS INVOLVEMENT

Cornell Hedge Fund

Vice President of Recruitment

Ithaca, NY

May 2023 – May 2024

- Pioneered the design and development of LiveSentiment, a unique platform created to show interviewers' live opinions during candidate deliberations; reduced discussion time by 50% and mitigated bias through increased transparency
- Directed an aggressive marketing campaign covering social media outreach, tabling across campus, information sessions, and open coffee chat events, resulting in a record-breaking 250 applications, 24% growth from the semester prior
- Represented the organization in front of over 500 prospective applicants; delivered engaging public presentations and hosted several major-agnostic events, such as Breaking into Business Clubs, to promote accessibility across all schools

Corporate & Alumni Chair

May 2022 – May 2023

- Planned the club's annual Wall Street visit with a focus on costs; coordinated a three-day trip with bussing, lodging, company tours, and an alumni dinner for \$100 per person, allowing for full attendance from all interested students
- Spearheaded the organization of Evercore and Goldman Sachs information sessions on-campus; responsible for booking auditorium spaces, publicizing the opportunities to Cornell students, and ensuring smooth setup for firm representatives

Fund Analyst

September 2021 – May 2023

- Worked with the industrials team to complete a comparable companies and discounted cash flow (DCF) analysis on Waste Management to yield a blended share price of \$178, implying a 12.7% upside over a one-year investment horizon
- Supported our quantitative projections by identifying and researching several key company catalysts; broke down the company's revenue by segment and utilized these catalysts to establish feasible growth rate estimates for our models
- Contributed to a leveraged buyout (LBO) model on Waste Management that implied an internal rate of return of 21%
